

**24 - 26 January 2018 – Cannes, France**

*Press Release*

**RECORD LEVEL OF LPS SET TO ATTEND THIRD EDITION OF THE  
INTERNATIONAL PRIVATE EQUITY MARKET**

**- GLOBAL INVESTORS HERMES, ONTARIO TEACHERS PENSION PLAN, NEUBERGER  
BERMAN AND UNIGESTION AMONGST +250 LPS REPRESENTING OVER \$400  
BILLION IN ALLOCATION-**

**London, 18 December 2017** – The International Private Equity Market (IPEM), the annual trade show, networking forum and conference for the private equity industry, has attracted a record number of Limited Partners who are registered to attend the event in Cannes in January 2018.

Some of the most high-profile investors and sources of capital with more than \$400 billion invested in private equity and venture capital will be present at the event including Alpinvest Partners, Neuberger Berman, Ontario Teachers' Pension Plan, Pantheon Ventures, Aberdeen Asset Management, Unigestion and CNP Assurances. Speakers at IPEM from the investment community include

- Ruulke Bagijn, Managing Director & Head of Primary Investments – AlpInvest
- Arnaud De Cremiers, Partner, Adams Street Partners
- Joe Topley, EMEA Funds Portfolio Manager, Ontario Teachers' Pension Plan
- Helen Steers, Partner and Head of European Primary Investment, Pantheon Ventures

Gilles Barissat the IPEM President said, "With many LPs becoming increasingly selective about their allocation to the private equity asset class, IPEM provides an excellent opportunity for GPs and LPs to network and share their perspectives on opportunities and challenges for the year ahead. We are delighted to be hosting such a well-respected cross-section of the industry and expect them to have a productive and informative few days working together."

IPEM is the only international trade show focused on private equity and venture capital. The trade show brings together over 1,400 professionals throughout the private equity market, including investors, general partners, corporates and advisers, with a 7,500 sqm exhibition and meeting area filled with key players in the industry. IPEM includes three days of networking, alongside social events and conference programme. Speakers will be discussing and debating a range of industry issues concerning the outlook for international private equity markets. A closed-door LP Summit will also gather institutional investors to tackle key issues in PE/VC through interactive roundtables.
