Get your photos in the Photo Gallery

Your Communication · https://www.ipem-market.com/help/paris/get-your-photos-in-photo-gallery/

Photo Gallery Tutorial in 3 steps:

Step 1 | Official IPEM photographers circulating throughout the event to capture participants

IPEM photographers upload the photos to the Photo Gallery in almost real-time.

Step 2 | Participants scan a QR code, take a selfie, and enter your e-mail address

In less than 30 seconds, and without installing anything, you activate your account on your smartphone, using facial recognition.

Step 3 | You access IPEM's photo gallery, which is automatically customized for you by AI

The Photo Gallery is powered by AI to automatically sort through and find your photos using facial recognition, and via powerful filters by location/day! You are also notified by email when new photos become available.

You can easily **download and share photos across social media (mentioning @IPEM)**.

To do so, few easy steps to follow:

Use the link and click >> HERE

Create and connect to your account!
