

# Bringing together Private Markets and Wealth ecosystems

**JANUARY 28–30, 2025**  
Palais des Festivals, Cannes, France

# New Promises for Private Markets

Dear IPEM Friends,

The January 2025 edition of our signature Cannes event is set to take place at a pivotal moment for private capital. While macroeconomic challenges have been extensively discussed and can now be considered the “new normal,” fantastic opportunities are also just around the corner for our industry. This year’s theme, “The New Promises of Private Markets,” reflects this exciting shift. Private markets are not only poised to outperform but also to continue innovating in deals, creating value, and expanding their investment universe beyond traditional private equity. They are also democratizing rapidly and irresistibly.

The launch of “IPEM Wealth” heralds a new era of growth for private capital, with the potential to raise \$10 trillion in new capital from high-net-worth individuals and retail investors over the next decade. Before private capital becomes a mass-market product, offering individual investors broad access to the most exciting investments in the real economy, it will need to learn and adapt. This will require significant product innovation, regulatory changes, market education, sales efforts, and ongoing debate. IPEM Wealth aims to bridge the gap between traditional wealth management and the dynamic world of private markets.

I hope you will join us and embark on the next exciting chapter for our industry in Cannes this January!

**Antoine Colson**

CEO & Managing Partner at IPEM
