

September 9-11, 2024 | Palais des Congrès | Paris, France

Forging Confidence

Investing demands trust in your instincts and market conditions, but recent years have been turbulent for private capital. From fluctuating interest rates to geopolitical and tech disruptions, it's been a wild ride.

While some investors double down, others trim their allocations. Valuing assets and closing deals is trickier than ever for GPs. Major themes like ESG and climate investing take a backseat amid acute challenges. Against the iconic Eiffel Tower, symbolizing strength and resilience, IPEM Paris 2024 will gather industry leaders to dive deep, debate fiercely and, most importantly, forge ahead with confidence!

Antoine Colson
CEO & Managing Partner at IPEM

LPs will be able to collect their wristbands on site.
